The request for continued examination filed 18 June 2003 is improper because continued examination under 37 CFR 1.114 does not apply to an application unless prosecution in the application is closed. Since the request for continued examination was accompanied by a reply to a non-final Office action, the reply has been entered and considered under 37 CFR 1.111.

Claims 35 and 36 were canceled and new claims 41 and 42 were added in Paper No. 27 filed 18 June 2003. Claims 31-34 and 37-42 are pending and under examination.

Applicant's amendment has overcome the objection to claims 35 and 36 as previously offered.

Applicant is again requested to update the status of parent application(s) to which reference is made in the first sentence of the specification.

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reasons set forth on the Notice to Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures that was attached to the Office action remailed on April 25, 2002.

Applicant is given the same time period within which to comply with the sequence rules, 37 CFR 1.821 - 1.825, as is available to respond to this Office action. Failure to comply with these requirements will result in ABANDONMENT of the application under

37 CFR 1.821(g). Direct the reply to the undersigned. Applicant is requested to return a copy of the aforementioned Notice to Comply with the reply.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 31-34 and 37-42 are rejected under 35 U.S.C. 112, first paragraph, for reasons of record in rejecting claims 31-40 in the previous Office action.

Since Applicant has offered neither amendment nor argument directed to this rejection, it is maintained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
